

# SALAH-ELDIN HASSEN

(+20) 1127709232 | Giza / Egypt | [salah0eldin.work@gmail.com](mailto:salah0eldin.work@gmail.com) | [Linkedin Profile](#) | [Github Profile](#)

## EDUCATION

- **Cairo University Faculty of Engineering, Department of Electronics and Electrical Communication Engineering (CUFE EECE).**

## WORK EXPERIENCE

- **Robotics & Embedded Instructor | Beta Academy | Seasonal | Jan 2023 – Jan 2025.**
  - Promoted from Technical Support to Lead Instructor for Arduino and AVR embedded systems, instructing 600+ students in programming and hardware integration with consistently positive feedback.
- **Coding AI Trainer | Outlier | Freelancing | Sep 2024 - Dec 2024.**
  - Trained and optimized AI models for coding tasks through iterative evaluation, scenario-based testing, and targeted training frameworks to enhance code generation accuracy and algorithmic proficiency.

## SKILLS

- **Digital:** HDL languages (VHDL, Verilog, System Verilog) - TCL - FPGA Xilinx - Linting.
- **Software:** C / C++ - OOP - MATLAB - Assembly - Rust - Data Structures - Algorithms - Python - Automation - Scripting - Linux - Fedora - Kali Nethunter - AI tools - Qt - Git & Git-Hub - Latex.
- **Embedded:** Atmega16/32 (AVR) - PIC18F2XK20/4XK20 (PIC) - STM32 - ARM Cortex-M - Embedded C - FreeRTOS - I2C - USART - SPI - SOMEIP.
- **Web:** HTML5 - CSS3 - JavaScript - Bootstrap - jQuery - Laravel - SQL.
- **Tools:** Visual Studio - Eclipse - Cube IDE - MPLAB Code Configurator - MATLAB - Proteus - Cadence - Multisim - Questa/Modelsim - Vivado - Arduino IDE - QT Creator - DataGrip - Altium.

## PROJECTS

- **SPI Slave Interface** | (Vivado, Questasim, Verilog, SPI, Single-Port RAM, Constraints, Linting).
  - Designed a modular and hierarchical architecture for the SPI Slave Interface project, incorporating key components such as the SPI Slave Interface and RAM modules. Developed self-checking testbenches to validate functionality and performance of these modules, ensuring efficient and reliable operation.
- **Spartan-6 DSP48A1** | (Verilog, DSP48A, C++ Golden Model, Test Benches, Linting).
  - Developed a DSP48A1 block, a crucial component in digital signal processing. Designed in Verilog and tested using C++ (Created golden model) and Verilog test benches. The project includes simulation results, lint reports, and automation scripts for verification.
- **Concurrent Rust TCP Server** | (Rust, Multithreading).
  - Designed a multithreaded Rust TCP server with Protocol Buffers and optimized test suite for port conflict resolution.
- **Advanced Tic Tac Toe Game** | (C++, Minimax Algorithm, Secure Hashing, Qt, SQLite, Git, GitHub Actions).
  - Designed a C++ Tic Tac Toe game with AI (minimax), user authentication, and an interactive Qt-based GUI.
- **Advanced Image Editor with Qt and OpenCV** | (C++, OpenCV, Qt).
  - Developed a Qt-based C++ image editor with OpenCV, featuring cropping, resizing, filters, and real-time editing.
- **FreeRTOS-Based Dual Microcontroller Door Security System** | (ATMega32, I2C, USART, EEPROM, FreeRTOS).
  - Designed a dual-microcontroller-based door security system with FreeRTOS, password authentication, and automated mechanisms. Utilized I2C EEPROM storage and motion detection for enhanced access control.
- **Advanced Digital Multimeter on PCB** | (ATMega32, PCB, GPIO, LCD, Keypad, ADC, Relays, MUX, DEMUX).
  - Designed a PCB-based multimeter to measure voltage, current, and resistance, integrating an LCD, keypad, and ADC for signal processing.

- **I2C-Integrated Control Unit** | (PIC18F46K20, I2C, USART, RTC, EEPROM).
    - Developed an I2C-based control unit for temperature monitoring and motor control, integrating RTC, EEPROM, and a slave MCU.
  - **Laravel Workshops System** | (Laravel, PHP, MySQL, Bootstrap, Git).
    - Built a Laravel system for workshop scheduling, participant management, and attendance tracking.
- 

## OTHER PROJECTS

- **Multi-CV Generator Script** - Automated Multi-CV generation using Python for ATS-friendly resume formatting.
  - **Simulation & Linting Scripts** - Developed Python and batch scripts for running ModelSim simulations, waveform viewing (GTKWave), and linting Verilog files using Qverify.
  - **Maze-Solving Line-Follower Robot Car** - Arduino-based pathfinding robot.
  - **SFML Chess Game** - C++ chess game with an interactive GUI.
- 

## COURSES

- **Digital Design Diploma** | Eng: Kareem Waseem | Jan 2025 - Mar 2025.
    - Gained a solid foundation in Digital and RTL Design using Verilog for synthesis and simulation.
    - Worked with FPGA design flow, including Vivado, IP catalog, and FPGA-based prototyping challenges.
    - Learned Static Timing Analysis (STA), clock domain crossing techniques, and low-power design methodologies.
    - Performed code linting and design rule checks using Questa Lint for quality verification.
  - **Digital Verification Course** | IEEE CUFE | Mar 2025 - May 2025.
    - Gained expertise in simulation-based verification using UVM, UVM structures, sequences, and configuration.
    - Proficient in QuestaSim for simulation, verification planning, functional coverage, and SystemVerilog assertions.
    - Studying formal verification techniques, clock domain crossing analysis, and debugging FPGA-based designs.
  - **SOME/IP Workshop** | BULLET - Eng/Hazem | OCT 2024 - OCT 2024.
    - Practical workshop on SOME/IP protocol and client-server communication.
    - Focused on service-oriented middleware for automotive and IoT applications.
  - **Linux Fundamentals** | IEEE ASU | Aug 2024 - Sep 2024.
    - Covered Linux file management, shell scripting, and system operations.
    - Learned networking, SSH, and web server setup.
  - **Advanced Embedded Diploma** | Eng: Ahmed Abdel-Gafar | Dec 2024 - April 2025.
    - Comprehensive training on ARM Cortex-M4, embedded development, and device drivers.
    - Bootloader implementation, automotive protocols (LIN, CAN), and AUTOSAR fundamentals.
    - MISRA C compliance for secure embedded software development.
  - **Embedded PIC Diploma** | Eng: Ahmed Abdel-Gafar | Jul 2024 - Sep 2024.
    - Training on embedded systems, PIC microcontrollers, and Embedded C.
    - Implemented drivers and worked with USART, SPI, and I2C protocols.
  - **Embedded AVR Diploma** | Eng: Mohammed Tarek | Jun 2024 - Oct 2024.
    - Training on embedded systems, RTOS, and AVR microcontroller interfacing.
    - Implemented drivers, worked with Embedded C, and practiced data structures.
- 

- **Competitions & Activities:** First place in Robotics Competition (2022), ECPC Contestant (2022, 2023), NASA Hackathon participant.
